

## **Academic Improvement Scholarship**

**CHUI CHEUK YI CHERRY**

Associate of Science in Creative and Interactive Media Production

Cherry feels her studies at the College enriched her in many ways as they enabled her to learn many new techniques in media production. Well versed in playing the piano, she considers herself to be an artistic and curious person who takes pride in originality and a responsible approach to any task she undertakes. Apart from life as a College student, she volunteers regularly as an "Information Technology Secretary" in the Youth Self-service Group of the Boys' and Girls' Clubs Association of Hong Kong. Cherry hopes that her further studies in a relevant degree programme will develop her skills further on her way to becoming a professional.
