

Academic Performance Scholarship

CAO CUN (CLOTH)

Associate of Science in Information Systems Development

A motivated and diligent student, Cloth has never let down his teachers or parents. For his strong logical thinking and sense of precision, he has impressed his teacher in the College's IT programme. As expected, his academic performance in the College has been excellent. He scored most of his subjects in the A's grade range if not B's. Amusingly, he has also been able to achieve his Semester GPA's with precision comparable to that of a computer. In all past three semesters, he obtained exactly 3.98 in each. Lively as he is, Cloth's interest is not limited to the computer. Last year, he joined the College's Summer Study Tour and visited Germany. He is a well-balanced good performer.
