

Outstanding Student Leader Award

AU CHEUK FUNG

Associate of Science in Creative and Interactive Media

Cheuk Fung's winning of both the Reaching Out Awards and a place on the Principal's List in Year I shows that he has done well in extra-curricular activities as well as his academic pursuit. The Reaching Out Award sponsorship provided him a chance to join a study tour to Kazakhstan. Cheuk Fung called it an eye-opening experience as it gave him the chance to experience foreign culture in a less known part of the globe. It also gave him interesting stories to share with new students when he met them in his capacity as the Chief Mentor for the AD programme. His position on the Principal's List is attributable to his high Semester GPA in the past three semesters of study in the College.
