

Outstanding Student Leader Award

MA KA WAI

Associate of Science in Environmental Studies

Ka Wai says she studies this Associate Degree programme because she loves nature. For her liking of this subject, she has gladly accepted her classmate's nomination for being class representative of the programme. She also shares her appreciation of the subject with new students to the programme by serving them in the roles of Student Mentor, Admissions student helper and Orientation Camp Organizing Committee Member. She even seeks to contribute to the programme at the College level by serving as the student representative in the Programme Revalidation Meeting. The teacher found Ka Wai "a responsible student". Ka Wai knows how to strike a balance between work and play. Over the past three semesters, she has been making steady improvements in her Semester GPA which has now reached the top band of the scale.
