Outstanding Student Leader Award

WONG TSZ LOK

Associate of Science in Information Systems Development

Good comments can be seen in the teacher's nomination of Tsz Lok for this award such as "good learning attitude, good peer relationships and generally brilliant in the study of computer science". We can see evidence of these teacher's compliments in Tsz Lok's academic performance in this College. Just his winning of the Outstanding Academic Performance award in two consecutive semesters in the current academic year already tells much of the story. Tsz Lok has also developed his extra-curricular life well. He is the Chief Student Mentor in the AD programme, organizer of the student Computer Science Society, and is an active basketball player, joining competitions from time to time.
